## Institution Industry Cell

To enhance Industry Institute inter-relationship, an Industry Institute Cell has been established in the year 2025. As continuous interaction between academia and industry culture is the need of the time. It provides a platform for both the students as well as faculty members to be aware of industry expectations of skill sets required for students.

Jamia Polytechnic has close association with the industry, which plays a v potential role in its growth even as it draws on the institute for talent and joint research. IIC aims at to bridge the gap between the institute and the industry and offer real time exposure on industry-based projects and other developments.

---

Address the student community about industry trends & opportunities

To offer research, development, consultancy and testing services to solve industrial problems and socio-economic problems prevailing in rural people.

To promote participation of industry personnel in the development of curricula and high quality student projects.

To provide technical training to lower and middle level industry personnel in the recent advances in design, manufacturing and management disciplines.

10.To assist the industry in the selection of suitable candidates to fill up jobs positions through campus interviews and other selection procedures.

## Activities of IIC

### Joint research & consultancy

The IIC plays a key role in bringing together government agencies, universities, industry faculty and students resulting in major contributions to design and development of the implementation of ICT in the country and across the world. The consultancy service facilitates, coordinates and administers sponsored and consultancy projects. It also identifies and protects IP rights and manages transfer of technology and commercialization.

---
